

SAVE TIME.SAVE MONEY.FEEL BETTER.

ABOUT ROKKETMED

Launched in 2015, by a healthcare industry executive and former Army Registered Nurse, RokketMed is a San Francisco-based healthcare and fintech company dedicated to driving down the cost of health care through price transparency. RokketMed has an online directory of providers that offer same-day care at affordable prices, a Medcard, and offers onsite rapid COVID testing services. At RokketMed we believe removing friction is the key to Next Generation Healthcare. We believe there are three main areas of friction that we are tackling head on.

- Friction in Payments
- Friction in Access
- Friction in Education

SERVICES & PRODUCTS

RokketMed is on a mission to make healthcare affordable and available for all by delivering solutions that empower consumers to optimize convenience and cost.

MEDCARD

Our prepaid Medcard is the first step in breaking down these key friction points. We've demonstrated that with employer funds on various prepaid HRA vehicles we can improve the way employees get real value from the benefits their employer provides.

ONSITE COVID TESTING

Our onsite COVID testing program has demonstrated that we can improve access to care by delivering certain healthcare services when and while employees are working. This approach is efficient, affordable and builds trust and education directly to a worker that is otherwise difficult to engage with.

ROKKETMED

TESTIMONIALS

"By switching to the RokketMed HRA debit cards, we were able to make it really easy for our employees to use their funds for medical expenses. Previously, there were always hurdles and challenges for them. But with the RokketMed card, they are all using their funds regularly. Tracy and her team have helped us all along the way and support our employees, too."

- Mary Gassen, President, Noe Valley Bakery

"I really appreciate the simplicity and accessibility of RokketMed. My employees love how easy it is to access real dollars to put towards their healthcare needs, and I love how RokketMed's support makes managing the program a breeze."

- Nick Wyner, Director of HR, Proposition Chicken

"We partnered with RokketMed for testing and vaccine verification for our Oracle NetSuite Open professional squash tournament in San Francisco. RokketMed's services and approach provided the security and confidence we needed during this stressful time of the global pandemic."

- John Nimick, Squash Engine
